## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 1 recites the limitation "carrier ring" in line 15 of the claim. There is insufficient antecedent basis for this limitation in the claim.

4. In claim 1, "them" is recited in line 13 of the claim. It is unclear to what "them" refers to (holding contacts, slides, etc.).

5. In claim 1, "forming part of the carrier ring" is recited in line 15 of the claim. What forms part of the carrier ring (cam ring, support parts, holding contacts, etc)?

6. Claim 2 recites the limitation "circle cams" in line 7 of the claim. There is insufficient antecedent basis for this limitation in the claim.

7. In claim 2, "cam ring is double" is unclear. Double what? Double cam rings? The stated phrase is immediately followed by "and comprises two cam circles". If "cam ring is double" refers to double cam rings, then the sentence appears to be redundant. Please clarify.

8. In claim 3, "it" is recited in line 2 of the claim. What is "it" referring to (support, part to be coated, etc.)?

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 7,361,256 discloses Applicant's prior art, US 2,489,369 (Foulke) discloses a vise with separately operable contacts and substrate displacement.
